Modi in Brasil

Prime Minister Narendra Modi will be holding talks. Jinping later tonight along sidelines of the 11th BRICS (Brazil-Russialndia-China-South Africa) summit meeting. After strongly objecting to provisions detrimental to Indian domestic industries, India retreated from the mega regional trading bloc RCEP. Now, the meeting between two topmost leaders comes a little more than a week after India walked out and a month since the two top leaders met for their aecond informal summit in Mamallapuram. Domestic industry in India has strongly opposed. RCEP arguing that the country of the country o mancing, use of internet for terrorist purposes, countering radicalisation, ussue of foreign terrorist fighters and capacity-building. It is expected that India will chiair the subgroup on use of internet for terrorist purposes," said TS Tirumurti, Secretary (Economic Relations) in MEA shead of the visit.

eing the decision of cultural identity through the spectacle of defeat and victory will have to reduce its importance.

The country whose freedom movement aims to establish Ramrajya, in the same country, if it has to a struggle for five hundred years for the birthplace of Ram, what else can be more ironic than this? The Ayodhya verdict of the Supreme Court is going to remove the entire Hindu society from despair and darkness. For Hindus, this issue is not a piece of land. It is associated with their issue is not a piece of land. It is associated with their and culture, and of any one realign fault in civilization and culture, and of any one realign land rivilization and culture, and of any one realign land in civilization and culture, and of any one land from the court ruling on the country its cultural Identity. Has the Hindus got a piece of land from the court ruling on the ownership of the disputed land. No, yee, This country has got its political-cultural identity. The identity that was obliterated for the establishment of socialism after independence, which European and Indian leftist historians portrayed as a perversion. Talking of Indian culture and Hinduism was presented as the biggest obstacle in the path of regressive, orthodox and the obstacle in the path of regressive, orthodox and security. This brought home the biggest criterion of secularism. This brought home the biggest criterion of the path of the path of the court, which was accented by the court, which was accented by the court, which was accented by
